26th November 1995

Dear Friends,

Thank you for your response and very generous support to the last letter sent out on 7th September. Many of you have written and suggested that we should apply for a charitable status, whereby there would be tax relief on donations. This has in fact been done.

However, if you prefer to send your cheque to me made out to THE SPITI PROJECTS I then put it onto a charitable building society account I hold. Then I take the money out on my next visit.

Due to the terrible floods in the Himalayas in September of this year much of the planned building work has been delayed. Recently, I had a letter from Dr Feico saying he had a very successful two months working in the hospital and the surrounding villages. Dr Feico says there is a great need in the future for a laboratory and X-ray equipment, this is our target for 1996.

With very best wishes to you all and thank you for your help and support.

Joan Pollock
